

# Colt Intelligent Communications

Unified Communications powered by Microsoft Office 365

Colt Intelligent Communications

## Fully integrated quad-play solution

- Enterprise productivity and unified communications applications using **Microsoft Office 365**
- **High bandwidth** on wholly owned fibre connectivity
- Enterprise-grade **voice services**
- **Professional Services** for transition and deployment, combined with handset and headset delivery

To provide you with the best customer experience, Colt delivers **end-to-end support, offering one single point of contract and contact across 13 countries**, covering applications, connectivity and hardware.

**Colt Intelligent Communications also provides the option of a Cloud SBC, which replaces the traditional physical hardware with a solution completely in the cloud. This means your SBC and connection will be in the cloud, giving you flexibility and speed in setting up your communication solution.**

More and more businesses are moving applications to the cloud, attracted by the ability to utilise the latest applications whilst avoiding the cost and overheads of an on-premise solution.

Colt Intelligent Communications brings together productivity applications and enterprise communication in the cloud, closely integrated to deliver everything needed to collaborate and work efficiently, with minimal switching between applications or tasks.

Moving your user setup to the cloud poses several challenges, such as integrating all applications, guaranteeing reliable connectivity, enjoying cost effective voice calls, and having all the support needed for the transition.

## Colt Intelligent Communications solution

Applications run on Microsoft's flagship Office 365 cloud based platform, ensuring a fully featured and familiar desktop experience and providing immersive unified communications with **Teams**.

Performance is guaranteed with Colt's connectivity to the cloud and voice breakout based on Colt's Tier 1, globally connected, high performance network.

Colt Intelligent Communications includes Professional Services, **hardware** delivery and configuration on premises:

- Provide Professional Services to help integrate your infrastructure with Colt Intelligent Communications.
- **IP desk phones** and **headsets** can be included and configured.
- Colt Intelligent Communications achieves higher reliability and voice cost savings by using Direct Routing with a Microsoft certified **Session Border Controller**, provided and maintained by Colt either on-premises or in Colt's network in the cloud
- Colt Adoption Services can support your migration to Microsoft Teams by working with your organisation to create a tailored adoption strategy
- Colt's Enterprise grade voice combines PSTN compliant SIP Trunking with fully flexible tariff plans for voice calling

## Benefits at a glance

- **Solution simplicity** - productivity applications and enterprise communication infrastructure in the cloud, with network, voice and support from a single provider.
- **Increased productivity** thanks to mobility and a seamless user experience across all devices and geographies.
- **Enhanced business continuity** From Colt's fibre network, predictable connectivity and highest resiliency provided by premium service quality options.
- **Simplified procurement** by having a single supplier for the end-to-end Microsoft Office 365 solution.
- **Savings** on voice traffic with flexible tariff plans

The following **Connectivity Options** are available, supporting **Direct Routing**, with consistent service wrap across Colt 13 European countries.

Create your on-premise Direct Routing infrastructure supported on a converged connection

**Colt IP Access and Colt SIP Trunking (Direct Routing)**

Create your Direct Routing infrastructure by segregating the connectivities of voice and data

**Colt Dedicated SIP Trunking (Direct Routing)**

Use a fully cloud infrastructure to support your Direct Routing

**Colt CloudSBC (Direct Routing)**

**Colt Network**

Colt has a 25-year track record as a business voice and connectivity provider with a **wholly owned Tier 1, globally connected network giving high performance access to the cloud.**

We provide a single, consistent, one stop shop offer across Colt 13 European countries – Austria, Belgium, Denmark, France, Germany, Ireland, Italy, Netherlands, Portugal, Spain, Switzerland, Sweden and the UK.
